### **Centerville Fire Department to get additional station**

Centerville Assistant Fire Chief John Pardo spoke to members of the Centerville Lions Club Monday evening, March 26. Pardo said a new building has been purchased near Round Barn Road and U-S 40. The plan to mve one fire engine and a medical squad to that location. It's expected that will reduce response time and help recruit new members.

A new engine was ordered before that new building was obtained. Pardo said they try to keep their engines less than 20 years. That helps with the ISO rating which affects insurance rates on home and building owners.

Pardo joined the Centerville department when he moved to Centerville.

The department is all volunteer. Pardo said like all organizations, volunteerism is down. The department serves Center Township and aids other departments when needed.
