Upcoming meeting

Our next meeting is May 14 at 6:30 pm at the Centerville Senior Center. The program will be about the Model T Museum. Remember, if you make a reservation for dinner, you are responsible for it.

Members briefed on diabetes

Phillips Drugs pharmacist Carol Overstreet, RPH spoke to members of the Centerville Lions Club about diabetes Monday evening, April 23. Along with her 4th grade niece alongside her, she described the differences between Type 1 and 2 diabetes.

She showed how her niece copes with Type 1, which usually occurs in children, teenagers or young adults. In Type 1, the pancreas no longer makes insulin and must be treated with taking insulin and making smart food choices. It accounts for 5% to 10% of all diagnosed cases in the United States.

Type 2 is much more common with up to 95% of all diagnosed cases in the country.

Overstreet also described the signs of diabetes. A simple test by your doctor can tell you if you have diabetes.

Club thanked for donation

Jan Passmore of the Richmond-Wayne County Chamber of Commerce appeared before the Centerville Lions Club to thank them for supporting the county-wide sign project.

The club donated \$100 dollars toward the refurbishing of signs at the edge of Centerville. Passmore said over the years the signs had started to show signs of wear from the elements. He said all signs around the county have now been rehabilitated.

Future meetings

May 28 – Fish Fry meeting

June 8-9 – Fish Fry

June 11 – Installation of Officers

Secretary Wendy Kornman

President Tim Hill

Bulletin Editor Bill Felker
